## PRESS RELEASE - FOR IMMEDIATE RELEASE

### **Xterprise Announces New Partnership with Mojix®**

*Leveraging breakthrough technology to launch new inventory and yard management applications*

**Dallas, TX – April 14, 2008** - Xterprise Incorporated, the leading global supplier of Solutions for the High Definition Enterprise™ and a Gold-Certified Microsoft™ ISV partner, announced today following extensive testing at Xterprise labs it has entered into a strategic partnership agreement with Mojix®. With this agreement, Xterprise becomes the launch partner and first independent software vendor offering applications that leverage the power of Mojix STAR™ (Space Time Array Reader) system.

“Over the last four years we have witnessed over \$1B invested in technology to bring UHF RFID to market. These investments have resulted in order of magnitude reductions in cost while achieving an equal level of improvement in performance. The Mojix STAR™ system introduces a step function improvement in performance and may result in total cost of ownership reduction for certain use cases,” said Dean Frew, CEO of Xterprise. “We are thrilled to be part the Mojix® launch and have added it to our technology portfolio to drive immediate value for our customers along with our Clarity™ suite of applications.”

By integrating the Mojix STAR™ system with the Clarity™ suite of applications, Xterprise is able to address an entirely new set of use cases and bring even greater value to the High Definition Enterprise™. Applications such as yard management, dock door operations, and large scale item level inventory management will be achievable with low cost passive and battery-assisted RFID tags.

“Through this reseller agreement, Mojix and Xterprise are bringing new enterprise class solution sets to the market,” said Kevin Duffy, SVP, Mojix Inc. “We are looking forward to working with Xterprise to push the limits of what is possible with passive RFID technology, and to bring breakthrough economic benefits to our mutual customers.”

### PRESS RELEASE

#### XTERPRISE ANNOUNCES MOJIX PARTNERSHIP

APRIL 14, 2008 - PAGE 2 OF 2

#### **About Mojix**

Headquartered in Los Angeles, Calif., Mojix was founded in 2004 by a team of former JPL/NASA scientists and engineers with the vision of applying breakthroughs in deep space communications to exponentially refine the precision, reach and scope of RFID technology. The first of a game-changing new class of RFID systems, company's Mojix STAR (Space Time Array Reader) system introduces capabilities orders of magnitude beyond conventional passive RFID offerings to enable economical, large-scale and high-volume RFID deployment. Mojix is privately held with funding from Oak Investment Partners, Red Rock Ventures and InnoCal Venture Capital. For more information, please visit [www.mojix.com](http://www.mojix.com).
